Privacy and Cookie Policy

Your Privacy Matters to Us

This is our privacy policy, which sets out how we (Weardale Renewable Energy CIC) use and protect information that you give us when you use our website. We are committed to protecting your privacy and should we ask you to provide any information by which you can be identified when using this website, it will only be used in accordance with this privacy statement. We may change this policy from time to time by updating this page.

1. Information We Collect

At present we do not collect any personal information from this website.

2. Links to other websites

Our website may contain links to other websites. Once you follow any link to leave our site, you should be aware that we do not have any control over that other website and we cannot be responsible for the protection and privacy of any information which you provide whilst visiting such sites, and such sites are not governed by this privacy statement. You should exercise caution and look at the privacy statement applicable to the website in question.

3. Cookies and Tracking Technologies

Cookies are small pieces of data, stored in text files, that are stored on your computer or other device when websites are loaded in a browser. They are widely used to "remember" you and your preferences, either for a single visit (through a "session cookie") or for multiple repeat visits (using a "persistent cookie"). They ensure a consistent and efficient experience for visitors, and perform essential functions. Cookies may be set by the site that you are visiting (known as "first party cookies"), or by third parties, such as those who serve content or provide advertising or analytics services on the website ("third party cookies").

We only use Analytic and Performance cookies on our website. These cookies allow us to optimize performance by collecting information on how users interact with our websites, including which pages are visited most, as well as other analytical data. We use these details to improve how our website functions and to understand how users interact with them.

Visitors may wish to restrict the use of cookies or completely prevent them from being set. Most browsers provide for ways to control cookie behavior such as the length of time they are stored – either through built-in functionality or by utilizing third party plugins.
